Originally aired as a series of 29 prime-time half-hour TV episodes on VERSUS and Outdoor Channel cable network from 2007-2010. Each highly produced show features fly fishing, saltwater and bass fishing guides at their particular lodge or destination. John Dietsch, known for his role supervising the fly fishing scenes on the Oscar® winning film *A River Runs Through It*, hosts each episode and gives his own insights into the lifestyle, technique and species pursued by each guide. From Italy to Chile, Belize to New Zealand, and throughout the United States, *Adventure Guides: Fishing Edition* explores the guiding way of life and techniques that bring angling success. With an emphasis on catch-and-release fly fishing, each show also touches on conservation challenges for the 21st century.
